DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/14/06 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 37-38 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Galli et al (US 3,781,596).

Galli discloses that in Fig. 10, 71 is etched to form a plurality of wiring lines (col. 9, lines 10-11) on a surface of a core layer 10, and further etching 71 using mask 74 to form a different thickness first portion 12 than a second portion 13 (Fig. 1a). Fig. 2 shows first portion of one line with 13 is parallel with another line with 12, other than the one next to 13. Any one of the wiring lines have third and fourth portions and first and third portions are parallel.

Response to Arguments

4. Applicant's arguments filed have been fully considered but they are not persuasive.

Applicant's concerns are addressed above.

Conclusion

5. Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for better clarity (optional). Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.
